Point-to-Point Authorization Form

McMinnville Access Company, dba OnlineNW, a provider of high-speed Internet services has been contacted by (customer's name) _____
to install and provide high-speed Internet service to (customer's address)
_____.

OnlineNW is licensed, bonded, and insured.

In order to provide service to (customer's name) _____
a point-to-point (PtP) relay solution is needed. A PtP solution requires a full
installation at (host's name) _____ at (host's address)
_____ to relay service. This solution requires approval from
both parties participating in the agreement.

Installation at both locations (customer's and host's property) requires drilling holes, mounting equipment, routing cable, electrical usage, and future access for maintenance and support. The actual installation plan will be explained by the technician and agreed upon by both parties before any work is started. Term of Service and other conditions still apply and can be found at onlinenw.com.

Please execute this document providing OnlineNW with your authorization to install a PtP relay.
